Shell Timing of Activities Question 4.pdf

Hanh,

Please find attached a document prepared by Shell as a partial response to Question #4, Geotechnical Related Activities, from the list of question provided to Shell by EPA back in March. The focus of the attached document is Timing of Geotechnical Surveys.

Shell understands that EPA's Question #4 has a broader scope than just the timing of surveys, and we intend to address the remainder of Question #4 and the rest of EPA's other questions in forthcoming documents. Rather than waiting until all of the documents detailing Shell's responses are finished, we elected to commence the flow of Shell's responses.

I look forward to discussing with EPA any questions or comments on the attached, plus the additional forthcoming documents.

Sincerely,

Greg Horner

Shell

Offshore Regulatory Team Lead

Subject: EPA's questions for March 26 meeting

In preparation for the March 26 meeting, EPA has prepared the attached list of questions regarding the draft Geotechnical NPDES General Permit for discussion. We look forward to seeing you next week.

Hanh Shaw, Manager

Oil, Gas and Energy Sector
